

# About Greener Way

Founded on March 8, 2010, in the heart of Bhutan, Thimphu, Greener Way is the leading solution for waste management. Inspired by Bhutan's Gross National Happiness Development Philosophy, we are passionately committed to creating a safe and healthy environment. Our mission is to reduce reliance on landfills and incinerators through innovative reuse and recycling programs. With a range of initiatives in place, we are actively working towards our vision of a clean and environmentally rich Bhutan, addressing global climate change issues.

Our mission is to revolutionize waste management in Bhutan through innovative and sustainable solutions, inspiring positive change, and setting new standards in the industry.
